

# FUSION LED36F

| Características      | Mod. FUSION36F       |
|----------------------|----------------------|
| Tensión de entrada   | 220V                 |
| Potencia             | 20W                  |
| CRI                  | >0.85                |
| Tecnología LED       | SMD5630              |
| Altura               | 85                   |
| Dimensiones          | H200xW200            |
| IP                   | 40                   |
| Color                | Inox/Aluminio/Blanco |
| Dimensiones de corte | 170x170              |
